

Hey Chad:

I just wanted to send you a BIG THANK YOU for all that you did for us in helping us stay within our budget. I know it wasn't easy and it took some time to finally make a decision but it was worth the while. The fountains look AMAZING in our pond and we are hoping to be able to purchase a third one next year to finish it off. We have received many compliments on them. Our walking path has been busy around the pond since the fountains were installed and the walking path finished. I was not here when they were installed but I hear everything went pretty smoothly. Again, thank you for everything and I look forward to working with you again in the near future!
